Top 10 Solutions to Make Your Microsoft Dynamics GP Solution Great

As we work with customers across many industries, we find that there are a few add-on solutions that almost everyone needs. Here are the top 10 that enhance GP and make using it so much easier.

1. **MICR Check Printing**—blank paper check printing (www.mekorma.com/mekormamicr/features/index.html)
2. **XL Reporter**—Excel-based Budgeting (www.xlreporter.com)
3. **Year End Forms**—deliver year-end forms to employees through a web portal (www.greenshades.com/products/dmf.aspx)
4. **Greenshades Center**—complete e-filing solution for SUTA/SUI returns, Local, State and Federal W-2s, 1099s, 401k, New Hire reports. (www.greenshades.com/products/gsc.aspx)
5. **Forms Printer** —customize the delivery method of your documents, allowing you to accommodate customers (www.accountable.com/FormsPrinter.asp?Product=Forms%20Printer)
6. **KwikTag**—digitally file, scan, retrieve and share documents directly from your desktop within Microsoft Dynamics GP (www.kwiktag.com/content.asp?ContentId=665)
7. **WorkPlace**—online procurement, requisitions, time and expense, and more (www.paramountusa.com/plains.html)
8. **SmartFill**—type part of the Name, Description, or WHATEVER you know into any ID field, and then intuitively discovers the correct ID and types it in for you. (www.rocktonsoftware.com/products.aspx?p=5)
9. **Credit Card Advantage**—Internet-based credit card processing solution (www.nodus.com/credit_card_advantage.html)
10. **Negative Payroll Transactions**—enter negative pay code transactions in order to reverse earnings on previous payroll runs (www.integrity-data.com/page.aspx?id=2008228133336761624744)
